MIRACLE OF QURAN EXPLODES SOON OVERWHELMS THE WORLD

In the September issue of M.P., a great miracle was published. I reported the physical fact that the numbers mentioned in the Quran are 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 19, 20, 30, 40, 50, 60, 70, 80, 99, 100, 200, 300, 1000, 2000, 3000, 5000, 50000, and 100000. The total of these numbers is 162146, or 19×8534 . Anyone can easily verify, witness, and appreciate this miracle: A deviation by 1 destroys the miracle.

In the October issue, I published the great discovery of Brother Abdullah Arik of Masjid Tucson. These new awesome facts authenticate every verse in the Quran. Here is how you can witness it:

- (1) Sura 1 consists of 7 verses, add the verse numbers $1 + 2 + 3 + 4 + 5 + 6 + 7$, and you get 28.
- (2) Add the number of verses in the sura, 7, and you get 35.
- (3) Write down the value for Sura 1 as 35.
- (4) Do the same for Sura 2---it contains 286 verses. You add $1 + 2 + 3 + \dots + 286$, and you get 41041.
- (5) Add the number of verses in Sura 2 and you get $(286 + 41041) 41327$.
- (6) Go on doing the same thing for every sura. The grand total is 339644, or 19×17876 .

ANOTHER MIRACLE:

- (7) Do the same calculations as described in # (1) above, but add the number of the sura. The value for Sura 1, therefore, becomes 36.
- (8) Repeat the same operation for all suras, you will find the grand total 346199, or 19×18221 .

ANOTHER TRULY AWESOME FACT:

If you do these calculations [steps (7) and (8)] for the 29 initialed suras only [suras 2, 3, 7, 10-15, 19, 20, 26-32, 36, 38, 40-46, 50, & 68], the grand total also is a multiple of 19, 190133, or 19×10007 .

When you do the same calculations for the 85 un-initialed suras, the total comes to 19x8214, or 156066.

Are you ready for this? The following additional discoveries were also made by Brother Abdullah Arik.

- (9) Take the 29 initialed suras. Add the number of each sura to the number of initials in it. For example, Sura 2 is initialed with 3 initials, A.L.M., so you add $2 + 3 = 5$.
- (10) Add the number of verse(s) where the initials occur. The Quranic initials occur in Verse 1 in all initialed suras except one---Sura 42 has two sets of initials in 2 verses. The A.L.M. of Sura 2 occur in one verse, so you add 1 to the 5 and you get the final value 6 for Sura 2.
- (11) Do this with every initialed sura. You guessed it: the grand total for all initialed suras is 931, or 19×49 .

This phenomenal intricacy confirms that the initials of Sura 42 occur in 2 verses, and that Sura 68, contains 2 initials (NuN).

So you think this is miraculous enough! Of course it is. But here is another truly astounding miracle. If you do the same calculations as in (9) thru (11), but **multiply** the sura number by the number of initials, instead of adding, the total is 2052, 19×108 . **ALLAHU AKBAR** [Illustrations on Page 2]

New Fantastic Discoveries

While writing Abdullah Arik's outstanding discoveries which are shown on Pages 1 and 2, Mr. Arik walked into my office with the following new findings.

These facts cover the 29 initialed suras:

- (1) The first initialed sura is Sura 2: Add the sura number to the number of verses in this sura ($2 + 286 = 288$).
- (2) Add the number of verses where the initials are found, 1, and you get 289.
- (3) Add the gematrical values of the initials A.L.M. ($1 + 30 + 40$); you get $289 + 71 = 360$.
- (4) Repeat these same easy calculations for all 29 initialed suras

(5) The grand total is 7030, or 19×370 .

ARE YOU READY FOR A SHOCK??

- (6) Carry out the calculations described above, but instead of **adding** the sura number plus the number of verses ($2 + 286$), **multiply** 2×286 .
- (7) Repeat same for all initialed suras.
- (8) The grand total is 63536, or 19×3344 , or $19 \times 19 \times 176$. See illustrations below:

Sura No.	No. of Verses	Initialed Verses	Gematrical Value of the Initials	Cumulative Total	TOTAL	
2	+	286	+ 1 +	$1+30+40$	= 360	360
3	+	200	+ 1 +	$1+30+40$	= 275	635
7	+	206	+ 1 +	$1+30+40+90$	= 375	1010
-	-	-	-	-	-	-
50	+	45	+ 1 +	100	= 196	6809
68	+	52	+ 1 +	$50+50$	= 221	7030= 19×370 .

Note the multiplication signs in this table:

2	x	286	+ 1 +	$1+30+40$	= 644	644
3	x	200	+ 1 +	$1+30+40$	= 672	1316
7	x	206	+ 1 +	$1+30+40+90$	= 1604	2920
-	-	-	-	-	-	-
50	x	45	+ 1 +	100	2351	59899
68	x	52	+ 1 +	$50+50$	= 3637	63536= $19 \times 19 \times 176$.

Another Great Discovery:

If you multiply the gematrical value of the Quran's initials by the number of initials, and add the number of initialed verses, the grand total is 10792, or 19×568 .

Sura No.	Gematrical Value of its Initials	No. of Initials	Initialed Verses	Total	Cumulative TOTAL
2	71	x 3	+ 1	= 214	214
3	71	x 3	+ 1	= 214	428
7	161	x 4	+ 1	= 645	1973
-	-	-	-	-	-
68	100	x 2	+ 1	= 201	10792= 19×568 .

ALL PARAMETERS OF THE INITIALED SURAS CONFIRMED

Sura No.	No. of Verses	Initialed Verses	No. of Initials	Gematrical Value	TOTAL	Grand TOTAL
2	+	286	+ 1 +	71	= 363	363
3	+	200	+ 1 +	71	= 278	641
-	-	-	-	-	-	-
68	+	52	+ 1 +	100	= 223	7109
2	x	286	x 3	71	= 121836	121836
3	x	200	x 3	71	= 127800	249636
-	-	-	-	-	-	-
68	x	52	x 2	100	= 707200	21455481

$$7109 + 21455481 = 21462590 = 19 \times 1129610$$

ONE FINAL NAIL IN THE COFFIN OF THE FALSE INJECTIONS 9:128-129

Take all the verses from the missing *Bismillah* (9:1) to the extra *Bismillah* (27:29):

- (1) Add the sura number plus the number of verses in each sura.
- (2) Of course, you use only 127 verses of sura 9, excluding the false injections 128 & 129, and you use only 29 verses from Sura 27 (since the *Bismillah* is found in Verse 30).
- (3) Add the "Sum of Verse Numbers" (1+2+3+ ... +n, where n is the number of verses in the sura).
- (4) You will find that the grand total is 119966, or 19x6314.

None attains this except those who are extremely fortunate [41:35] LETTERS FROM BELIEVERS ALL OVER THE WORLD

I am happily astonished at the number of true and courageous Muslims around the world who take the time to write down their support for God's messenger, and their commitment to worshipping Allah ALONE, and upholding His word, the Quran ALONE. Here is just one example from Pakistan:

Dear respected Rashad: Al hamdo Lillah! He has heard my prayers. Today I received and read the M.P.'s of July & Sept 88, and decided I too must write, as I had from long ago wanted to.

In the summer of 1971 I was discussing with a cousin the plight of the Muslims, at being un-Islamic and of different sects—I preferred to be just a Muslim—and said, "If Allah Almighty would send a messenger (and why not now when we most need one) to unite & right these wrong-doer Muslims and other believers among 'Ahle Kitab. After I had said it I wondered if this could happen in my lifetime, and if I would have the courage to stand up and accept him. Yes Allah be praised, He has in my lifetime, blessed me to be one to witness and accept you and your teachings of the Quran in its pure and clear sense.
